A Message from the President

Happy New Year to all of the Greenville Chapter! I hope you are fully recovered and back into the swing of things for 2007. The first half of the 2006 – 2007 year has been exciting for the Greenville Chapter. We closed out with another visiting speaker with a well-attended meeting.

Thanks to all members and guests who have attended our fall meetings. We have a full schedule of meetings coming this spring. Please be sure to review the last page of the Giga Joule – we have finalized the remaining speakers for the year.

Please come and join us for January's meeting. Chris Edmondson will be visiting our chapter, and his presentations are always top-notch.

Please keep your eyes open for our Spring Golf announcement. We hope to have just as many or more participants as we had for our fall outing.

If you have any questions or comments, please feel free to contact me.

Technology Transfer

Professional Organizations & Continuing Education

Many of the attendees at the monthly chapter meeting are there to gain continuing education credit towards their professional license. The South Carolina engineering licensing board requires attendees to maintain records of their attendance, so keep those certificates of attendance. In addition to attendee's records North Carolina requires sponsors to register with the North Carolina Board of Engineering Licenses, keep a list of those in attendance, and periodically transmit copies of those lists and sign-in sheets to the NC board. The Greenville ASHRAE Chapter has registered with the NC engineering board as a sponsor. Those who are registered in NC are requested to sign in twice, and please make it legible.

If you attend all the ASHRAE Greenville chapter meetings in a year you have 9 PDH's and are well on your way to the 15 required in South Carolina. There are other professional organizations in the area with technical session meetings where additional hours can be earned. This is usually an inexpensive way to earn PDH's and do a little networking at the same time. Below is a list of some of the meetings that we are aware of:

South Carolina Society of Professional Engineers, Piedmont Chapter
